

Release Plan
SlugSense Smart Irrigation
Team: WebSwag
Release: Gamma
Release date: 7/28
Revision: 3

- High Level Goals
 - Redesign and update chart.
 - Ensure the graph and data are presented and linked correctly.
 - Modify search function.
 - Add visible alerts that require attention.
 - Make a new login page that is material designed.
 - Standardize the layout of the web application adhering to Material Design Guidelines.
 - Final testing and ensure product works properly.
- User Stories
 - Sprint 1
 - (8 S.P.) As a user I would like to be able to clearly read a chart with useful data presented without confusion or obstruction.
 - Sprint 2
 - (13 S.P.) As a user, I want to be able to search for multiple variables across my wide array of devices to find specific nodes I may have concerns about.
 - (13 S.P.) As a user I would like any alerts to be displayed as a visible notification, visible from anywhere on the web application (may move to sprint 3 if not completed during this sprint).
 - Sprint 3
 - (21 S.P.) As a user, I would like the web application to be overall simple, clear and uniform in regards to design and visualizing data.

- (8 S.P.) As a user, I want to see a functional website so that I can count on the product's reliability.
 - (13 S.P.) As a user, I want to have a better looking and functional login page so that I can efficiently enter the web page.
 - (8 S.P.) As a user, I want alerts to be shown on the dashboard so I will have a clear idea if anything goes wrong.
 - (3 S.P.) As a user, I want to be able to clearly read a chart with useful data without confusion or obstruction.
- Product backlog
 - As a user, I want a more material designed navigation bar so that I will get useful information and perform certain tasks.
